

## List of equipment for babies and young children

We can provide the following equipment at your request :

- a **cot** (60x120cm wooden folding cot for infants up to the age of 3 (or 20kg), adjustable to 3 different heights, with a mattress, mattress protector and fitted sheet) or a folding bed for an older child ;
- a **folding baby-changing table** ;
- a **baby bath** with a high stand ;
- a reclining **high chair** ;
- a **bottle warmer** ;
- **plastic tableware** (plate, beaker, spoon) and a **bib** with drip tray ;
- a **potty** and/or **toilet training seat** ;
- a small **footstool**.

The cot or child's bed can be placed either in the bedroom 2 that has the 140x200cm bed (there is not enough room in the bedroom with the 180x200cm bed) or in the additional room when the sofa bed is not opened out as a bed.

Please note that the study area is separated from the living room by a curtain only, and there are no blackout curtains on the windows (unlike in the two main bedrooms). The sofa bed in this area can be opened out to make a 140x190cm bed suitable for two young children or one teenager.

You will also find a bookcase with **children's books** and **board games** in the additional room.

In the private garden outdoors, you will find a **children's playhouse** with kitchen, table and chairs, as well as a small slide and a see-saw for toddlers.
